### To Obtain the Annual Percentage Yield Disclosed

In order to obtain the disclosed APY you must maintain a minimum average daily balance of \$1000.00. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

### Compounding and Crediting

Frequency-Interest will be compounded every statement cycle. Interest will be credited every statement cycle.

If you close your account before interest is credited, you will not receive the accrued interest.

### Balance Computation Method-Average Daily Balance

We use the average daily balance method to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

**The period we use is a monthly statement cycle.**

### Accrual of Interest on Noncash Deposits

Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

Check printing fee depends on style ordered. A fee of \$0.50 may be assessed for each check not ordered through First International Bank & Trust that cannot be automatically processed.

**Transaction Processing**

We typically post transactions in the following order: ATM/POS items (smallest amounts to largest), ACH (as received), and checks in numerical sequence so lower check numbers are paid first. There is a limit of 7 Paid Overdraft Item Fees or Returned Item Fees (\$210) per day we will charge.
